

Intimate and Bespoke Hotel Sanders [Copenhagen]

An intimate and bespoke luxury hotel in the historic part of Copenhagen. Opening this autumn.

Nestled between Copenhagen's royal castles, contemporary art galleries, classic theatres and historical buildings you will find an intimate and bespoke hotel called Sanders. Copenhagen's latest luxury boutique hotel is set to welcome its first guests this fall. And by judging these first pictures it's going to look amazing!

The design of the hotel has been led by London-based Lind + Almond (formerly Soho House Group) which will be the design duo's first inaugural project. Sanders will feature a total of 52 bedrooms, and will be located just around the corner from The Royal Danish Theatre. Can't wait to see the result!

Unlike other local hotels, the interior décor of Hotel Sanders will draw upon local cultural and colonial influence, with an east-meets-west theme throughout. A selection of emerging British artists have also been commissioned by Dais Contemporary to make exclusive artwork throughout the hotel.
